ARULRAJ VENKADACHALAM

SENIOR SOFTWARE ENGINEER, FRONTEND

Salem, India | +91 8189838485 | abofficial1997@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Senior Software Engineer, Frontend with over 5 years of experience in designing, developing, and deploying scalable web and mobile applications. Skilled in React.js, React Native, TypeScript, Redux Toolkit, Next.js, and Micro-Frontend architecture, with extensive expertise in building enterprise-grade platforms. Currently leading all frontend development at The Reward Store, architecting 5 production micro-frontend platforms comprising 12+ independently deployed applications using Module Federation and Rspack. Proven track record in technical leadership, mentoring developers, conducting code reviews, and delivering high-impact features including flight booking systems, real-time payment integrations, and enterprise admin dashboards. Experienced in building reusable component libraries, cross-platform mobile apps, and AI-assisted development workflows.

KEY STRENGTHS

- Technical Leadership & Mentoring
- Micro-Frontend Architecture
- Cross-Functional Collaboration
- Code Review & Quality Standards
- Performance Optimisation
- Scalable System Design
- Cross-Platform Mobile Development
- AI-Assisted Development Workflows

TECHNICAL SKILLS

- **Frontend Development:** React.js, React Hooks, TypeScript, JavaScript, Redux Toolkit, Next.js, HTML, CSS, Tailwind CSS, Webpack, Rspack
- **Mobile Development:** React Native (Expo & CLI), CodePush OTA Updates, Capacitor, Cordova, Ionic
- **System Scalability:** Micro-Frontends, Module Federation, Performance Optimisation, Caching Strategies
- **DevOps & Deployment:** AWS Frontend Deployment, Netlify, Vercel, Git, GitHub, CI/CD Pipelines
- **Testing:** Jest, React Testing Library, Storybook, Unit Testing
- **Other Tools:** GraphQL, Razorpay Integration, Google Analytics, Microsoft Clarity, AI Tools (Claude, Cursor, MCP Server)

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER, FRONTEND

JUN 2025 - PRESENT

The Reward Store, Global Rewards Platform (owned by Vananam Rewards Private Limited)

Leads all frontend development for a global rewards platform offering gift cards, merchandise, travel, flight booking, bill payments, and mobile recharges — powered by five independently architected micro-frontend web applications and native mobile apps.

- Architect and maintain 5 production micro-frontend platforms (Store Front, Client Panel, Admin Panel, Vendor Dashboard, and Micro-Frontend) with 12+ independently deployed applications using Webpack Module Federation and Rspack, enabling parallel team development, independent deployments, and zero-downtime releases.
- Built Store Front (8 micro-frontends, 1,100+ TS files) for product browsing, gift card redemption, flight booking, bill payments, and recharges serving thousands of end-users.
- Developed Client Panel (4 micro-frontends, 487 TS files) with reward distribution, automated rewards engine, sub-account management, and real-time activity wall.
- Created Admin Panel (15 federated modules, 170 TS files) featuring drag-and-drop landing page builder, multi-step microsite wizard, and custom attribute engine.
- Leading all frontend development efforts — driving architecture decisions, establishing coding standards, conducting code reviews, and mentoring junior developers.
- Maintaining a private npm package (@therewardstore/ui) with 40+ reusable components and 15+ custom hooks, plus a visual UI Builder library driving consistency across all platforms.
- Designed end-to-end features including flight booking with multi-city search, real-time bill payments with UPI, e-commerce catalog with cart management, and webhook management system.
- Integrated Razorpay payment gateway, Google reCAPTCHA v3, and Microsoft Clarity analytics for secure transactions and data-driven UX improvements.

SKILLS:

- React 19, React Native, TypeScript, Redux Toolkit, Tailwind CSS, Module Federation, Rspack, Razorpay, Node.js, CodePush, Storybook and AI Tools.

SOFTWARE ENGINEER
JUL 2023 - JUN 2025

Ripple Street India Private Limited, B2H Marketing Platform

Developed cross-platform mobile applications for the leading business-to-humans (B2H) marketing platform, connecting brands with their most passionate fans.

- Developed cross-platform mobile applications for both iOS and Android using React Native, enhancing user engagement and brand visibility.
- Designed and implemented responsive interfaces tailored for both mobile and tablet devices, ensuring a seamless user experience across different platforms.
- Took ownership of core features, optimizing performance and eliminating redundant code — reducing bundle size by 20% and improving load times.

SKILLS:

- React Native, React.js, Redux, TypeScript, JavaScript, Apollo GraphQL.

SENIOR SOFTWARE ENGINEER
APR 2022 - JUL 2023

Squash Apps, Healthcare & FinTech Solutions

Led development of multiple applications across healthcare and fintech domains, managing team delivery and ensuring high-quality cross-platform experiences.

- Led the development of a hospital management system (Testosteronology) consisting of three key applications: Doctor, Patient, and Nurse for both web and mobile platforms.
- Developed web, Android, and iOS payment solutions (Payfiniti), optimizing performance and leading a team of 2 engineers ensuring timely delivery.
- Developed office desk booking application for Android and iOS using React Native CLI with offline caching capabilities.
- Utilized a theme-based NPM package architecture to ensure consistency and scalability across all projects.

SKILLS:

- React Native (CLI), React.js, Next.js, Angular.js, Ionic, Redux, TypeScript, JavaScript, Google Maps, WebRTC and NPM.

FRONTEND DEVELOPER
OCT 2021 - MAR 2022

Zita, AI-Powered Recruitment Platform

Took complete ownership of the frontend development for an AI-powered resume evaluation platform, from design to deployment.

- Leveraged Zita's AI to streamline the resume evaluation process, reducing candidate selection time by 50% compared to traditional methods.
- Developed the entire frontend of the AI-powered application using React.js.
- Took complete ownership of the project, overseeing all aspects from UI/UX design to production deployment.

SKILLS:

- React.js, Redux, TypeScript, JavaScript, Bootstrap, Storybook, HTML and CSS.

FRONTEND DEVELOPER
MAY 2020 - OCT 2021

ShopUp, Retailer E-Commerce Platform

Developed reusable UI component libraries and product management interfaces to standardize development across the organization.

- Developed a customized UI component NPM library tailored for companies to streamline and standardize UI across various projects, improving developer productivity by 30%.
- Designed and implemented a UI for managing all products, ensuring intuitive interaction and efficient management capabilities.

SKILLS:

- React Native, React Native Web, TypeScript, JavaScript and StoryBook.

KEY PROJECTS

The Reward Store: 5 micro-frontend web platforms with 12+ apps — rewards, flight booking, bill payments.

React Native UI Kit: Open-source theme-based React Native NPM package for cross-platform UIs.

Ripple Street: iOS/Android app for B2H marketing — App Store & Google Play, Apollo GraphQL.

Zita.ai: AI recruitment platform — complete ownership, reduced hiring time by 50%.

DrugRound: Healthcare mobile app for iOS/Android with offline caching.

EDUCATION

B.E. - Computer Science Engineering, Thiagarajar College of Engineering, Madurai — **2017 - 2020**

CGPA: 7.03

Diploma - Electronics & Communication Engineering, Thiagarajar Polytechnic, Salem — **2015 - 2017**

Percentage: 89%
